Before I accept the call plz clarify why have you deleted ur tweet reply regarding the confirmation of unsigned wallet! I have lost 70k of assets yet I'm transparent tweeting with my real name how about u take responsibility if I prove u wrong in private with ur security measures

Apologies for the inconvenience, we are

saying I also lost my assets due that.

This is standard company policy in order to pursue this further, since you repeatedly refused to responsibly disclose your findings through the proper encrypted channels as requested.

You have to ask for kyc during registration or usage of ur service not once u are busted by your client however i am willing to do it if u accept to be held responsible for your weak security implication of your wallet
