Dogecoins stolen

All my dogecoins were stolen from my Coinomi Wallet, maybe it was a virus? Is there any way to get them back?

Hu there, funds can only be sent from your wallet by someone who has access to the recovery phrase or by someone who has access to your device and knows your password. Please drop us an email to support@coinomi.com with all of the details so we can take a look and offer further guidance. Thank you

I spoke with support last night via the Live chat support in the iOS app, because I cannot send coins out. They said,

"There is a known issue with the DOGE wallet in Coinomi causing connection problems, which prevents transactions from appearing and displaying the correct balance. Rest assured, all funds are safe. We're aware of the issue and apologize for the inconvenience. Fixes are underway, but it may take time.
