Replying to @gatekeepr and @CoinomiWallet

Hi, We are working on adding simultaneous support for both sides of the fork and possibly a splitting service so users can conveniently and safely split their coins. Making BCH transactions without properly splitting can cause loss of the forked BCHA coins

Nobody in particular

@gatekeepr · [Follow](#)

What a fucking gongshow. I've lost more being unable to send my BCHN when I wanted to than I would from losing the forked BCHA. Thanks, guys, real big brain move there... not like you had advance warning to prepare, right?

Uninstalling Coinomi as soon as I can get my coins out..
